Instructions & Study Method

Welcome to your Applaa offline practice booklet. Please follow these guidelines to maximize your learning outcome:

- 1. Distraction-Free Practice:** Solve the multiple-choice questions in Section 1 under timed conditions. Do not look for shortcuts or answers until you are completely done.
- 2. Check & Submit Online:** We have intentionally excluded the answer key from this printout. To get your score, see worked solutions, and track your progress metrics, open: <https://applaa.com/practice/check?exam=lnat&paper;=168> on any browser. Bubble in your answers in our digital check sheet.
- 3. Learn with Appy Buddy (AI Socratic Tutor):** Applaa is a 100% ad-free educational space. Our online AI Tutor guides you step-by-step through questions you get wrong, showing you how to solve them rather than just giving you the answer.

■ SUPERCHARGE YOUR STUDIES WITH APPLAA DESKTOP APP

Tired of printing PDFs and manual grading? Download the **Applaa Desktop Application**. It includes interactive exam mocks, real-time pacing stats, auto-grading, and personalized Socratic AI support. Get a **14-day free trial** of our premium preparation package to track your progress rate.

Section 1: Practice Questions

Reading Passage:

Few issues in contemporary Democratic Representation elicit as much controversy as the prospect of lowering the minimum voting age to sixteen in national elections. At the core of the supportive position lies the promise of engaging young people early in the democratic process and representing their stakes in long-term policy decisions. Advocates argue that failing to embrace this development constitutes a form of societal stagnation, keeping obsolete frameworks in place.

On the other hand, a substantial body of criticism focuses on the risk of enfranchising individuals who may lack political maturity and are financially dependent on parents. Skeptics point out that the implementation of such systems often leads to unintended consequences. They caution that the desire for progress must not overshadow the ethical hazards inherent in this transition.

An intermediate solution often proposed is combining the voting age reduction with mandatory civic education courses in schools. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.

Question 1 — [Section A / Reading Comprehension]

According to the passage, which of the following best represents the primary benefit claimed by the proponents of lowering the minimum voting age to sixteen in national elections?

- A: It would completely eliminate the need for any government oversight in Democratic Representation.
- B: It will guarantee immediate financial profits for all stakeholders involved.
- C: sixteen-year-olds can work, pay taxes, and consent to medical treatment, so they should have a voice in parliament
- D: It has been universally endorsed by all legal and ethical scholars in Democratic Representation.

Question 2 — [Section A / Reading Comprehension]

Which of the following assumptions is necessary for the proponents' argument regarding lowering the minimum voting age to sixteen in national elections to stand?

- A: That the financial cost of implementing the technology is completely negligible.
- B: That traditional methods have never successfully solved any of the problems in this area.
- C: civic education courses are capable of providing objective, non-partisan political training
- D: That public opinion is always unified on matters of Democratic Representation.

Question 3 — [Section A / Reading Comprehension]

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of lowering the minimum voting age to sixteen in national elections?

- A: Younger voters statistically turnout at higher rates than retirees.
- B: The debate centers on whether the capacity to contribute to society implies a right to govern it.
- C: No other country has ever permitted individuals under 18 to vote.
- D: All sixteen-year-olds pay income tax on their pocket money.

Reading Passage:

The ongoing debate surrounding giving historic preservation laws veto power over urban housing developments has emerged as a central theme in modern Culture and Urbanism. Proponents argue that its adoption represents a significant milestone, promising preserving cultural heritage and maintaining the unique aesthetic identity of historic cities. By streamlining operations and introducing systemic standardization, it could pave the way for long-overdue reforms.

On the other hand, a substantial body of criticism focuses on the risk of restricting the supply of modern, affordable housing and driving up real estate costs for residents. Skeptics point out that the implementation of such systems often leads to unintended consequences. They caution that the desire for progress must not overshadow the ethical hazards inherent in this transition.

An intermediate solution often proposed is permitting the conversion of historic facades while allowing modern construction behind them. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.

Question 4 — [Section A / Reading Comprehension]

According to the passage, which of the following best represents the primary benefit claimed by the proponents of giving historic preservation laws veto power over urban housing developments?

- A: It will guarantee immediate financial profits for all stakeholders involved.
- B: It would completely eliminate the need for any government oversight in Culture and Urbanism.
- C: It has been universally endorsed by all legal and ethical scholars in Culture and Urbanism.
- D: once a historic building is demolished, a piece of communal memory and architectural history is lost forever

Question 5 — [Section A / Reading Comprehension]

Which of the following assumptions is necessary for the proponents' argument regarding giving historic preservation laws veto power over urban housing developments to stand?

- A: That public opinion is always unified on matters of Culture and Urbanism.
- B: That the financial cost of implementing the technology is completely negligible.
- C: That traditional methods have never successfully solved any of the problems in this area.
- D: affordable housing demands cannot be met by building on non-historic outer city sites (greenfield land)

Question 6 — [Section A / Reading Comprehension]

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of giving historic preservation laws veto power over urban housing developments?

- A: Historic buildings are structurally safer than modern steel skyscrapers.
- B: Building housing always results in a net decrease in local economic activity.
- C: Preservation policies reflect a prioritisation of collective memory over immediate economic utility.
- D: No private developer has ever agreed to restore a listed landmark.

Reading Passage:

The ongoing debate surrounding deploying live facial recognition in public street cameras has emerged as a central theme in modern Civil Liberties. Proponents argue that its adoption represents a significant milestone, promising the rapid identification of wanted criminals and preventing public security threats. By streamlining operations and introducing systemic standardization, it could pave the way for long-overdue reforms.

However, this enthusiasm is tempered by warnings from critics who raise concerns regarding eroding the right to privacy, chilling public assembly, and creating a state of perpetual surveillance. In their view, the unchecked expansion of this practice presents a threat to fundamental societal values. The primary danger, they suggest, lies in the potential to overlook individual nuances in favor of systemic efficiency.

An intermediate solution often proposed is requiring judicial warrants before cross-referencing surveillance feeds against database watchlists. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.

Question 7 — [Section A / Reading Comprehension]

According to the passage, which of the following best represents the primary benefit claimed by the proponents of deploying live facial recognition in public street cameras?

- A: It will guarantee immediate financial profits for all stakeholders involved.
- B: Law-abiding citizens have no reason to fear public surveillance if it significantly reduces violent crime rates.
- C: It would completely eliminate the need for any government oversight in Civil Liberties.
- D: It has been universally endorsed by all legal and ethical scholars in Civil Liberties.

Question 8 — [Section A / Reading Comprehension]

Which of the following assumptions is necessary for the proponents' argument regarding deploying live facial recognition in public street cameras to stand?

- A: That public opinion is always unified on matters of Civil Liberties.
- B: Surveillance systems are highly accurate and free from false-positive demographic biases.
- C: That traditional methods have never successfully solved any of the problems in this area.
- D: That the financial cost of implementing the technology is completely negligible.

Question 9 — [Section A / Reading Comprehension]

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of deploying live facial recognition in public street cameras?

- A:** Private security guards have the same legal arrest powers as police officers.
- B:** Facial recognition is only capable of identifying people wearing masks.
- C:** Mass surveillance represents a fundamental shift in the presumption of innocence in public spaces.
- D:** Camera footage is automatically deleted after 24 hours in all jurisdictions.
