# Instructions & Study Method

Welcome to your Applaa offline practice booklet. Please follow these guidelines to maximize your learning outcome:

- 1. Distraction-Free Practice:** Solve the multiple-choice questions in Section 1 under timed conditions. Do not look for shortcuts or answers until you are completely done.
- 2. Check & Submit Online:** We have intentionally excluded the answer key from this printout. To get your score, see worked solutions, and track your progress metrics, open: <https://applaa.com/practice/check?exam=lnat&paper;=221> on any browser. Bubble in your answers in our digital check sheet.
- 3. Learn with Appy Buddy (AI Socratic Tutor):** Applaa is a 100% ad-free educational space. Our online AI Tutor guides you step-by-step through questions you get wrong, showing you how to solve them rather than just giving you the answer.

## ■ SUPERCHARGE YOUR STUDIES WITH APPLAA DESKTOP APP

Tired of printing PDFs and manual grading? Download the **Applaa Desktop Application**. It includes interactive exam mocks, real-time pacing stats, auto-grading, and personalized Socratic AI support. Get a **14-day free trial** of our premium preparation package to track your progress rate.

# Section 1: Practice Questions

## Reading Passage:

*The ongoing debate surrounding deploying live facial recognition in public street cameras has emerged as a central theme in modern Civil Liberties. Proponents argue that its adoption represents a significant milestone, promising the rapid identification of wanted criminals and preventing public security threats. By streamlining operations and introducing systemic standardization, it could pave the way for long-overdue reforms.*

*On the other hand, a substantial body of criticism focuses on the risk of eroding the right to privacy, chilling public assembly, and creating a state of perpetual surveillance. Skeptics point out that the implementation of such systems often leads to unintended consequences. They caution that the desire for progress must not overshadow the ethical hazards inherent in this transition.*

*An intermediate solution often proposed is requiring judicial warrants before cross-referencing surveillance feeds against database watchlists. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.*

### Question 1 — [Section A / Reading Comprehension]

According to the passage, which of the following best represents the primary benefit claimed by the proponents of deploying live facial recognition in public street cameras?

- A: It would completely eliminate the need for any government oversight in Civil Liberties.
- B: Law-abiding citizens have no reason to fear public surveillance if it significantly reduces violent crime rates.
- C: It has been universally endorsed by all legal and ethical scholars in Civil Liberties.
- D: It will guarantee immediate financial profits for all stakeholders involved.

### Question 2 — [Section A / Reading Comprehension]

Which of the following assumptions is necessary for the proponents' argument regarding deploying live facial recognition in public street cameras to stand?

- A: That the financial cost of implementing the technology is completely negligible.
- B: Surveillance systems are highly accurate and free from false-positive demographic biases.
- C: That public opinion is always unified on matters of Civil Liberties.
- D: That traditional methods have never successfully solved any of the problems in this area.

**Question 3 — [Section A / Reading Comprehension]**

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of deploying live facial recognition in public street cameras?

- A: Camera footage is automatically deleted after 24 hours in all jurisdictions.
- B: Facial recognition is only capable of identifying people wearing masks.
- C: Mass surveillance represents a fundamental shift in the presumption of innocence in public spaces.
- D: Private security guards have the same legal arrest powers as police officers.

**Reading Passage:**

*Few issues in contemporary Civil Liberties elicit as much controversy as the prospect of deploying live facial recognition in public street cameras. At the core of the supportive position lies the promise of the rapid identification of wanted criminals and preventing public security threats. Advocates argue that failing to embrace this development constitutes a form of societal stagnation, keeping obsolete frameworks in place.*

*On the other hand, a substantial body of criticism focuses on the risk of eroding the right to privacy, chilling public assembly, and creating a state of perpetual surveillance. Skeptics point out that the implementation of such systems often leads to unintended consequences. They caution that the desire for progress must not overshadow the ethical hazards inherent in this transition.*

*An intermediate solution often proposed is requiring judicial warrants before cross-referencing surveillance feeds against database watchlists. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.*

**Question 4 — [Section A / Reading Comprehension]**

According to the passage, which of the following best represents the primary benefit claimed by the proponents of deploying live facial recognition in public street cameras?

- A: It will guarantee immediate financial profits for all stakeholders involved.
- B: Law-abiding citizens have no reason to fear public surveillance if it significantly reduces violent crime rates.
- C: It has been universally endorsed by all legal and ethical scholars in Civil Liberties.
- D: It would completely eliminate the need for any government oversight in Civil Liberties.

**Question 5 — [Section A / Reading Comprehension]**

Which of the following assumptions is necessary for the proponents' argument regarding deploying live facial recognition in public street cameras to stand?

- A: That public opinion is always unified on matters of Civil Liberties.
- B: That the financial cost of implementing the technology is completely negligible.
- C: Surveillance systems are highly accurate and free from false-positive demographic biases.
- D: That traditional methods have never successfully solved any of the problems in this area.

**Question 6 — [Section A / Reading Comprehension]**

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of deploying live facial recognition in public street cameras?

- A:** Mass surveillance represents a fundamental shift in the presumption of innocence in public spaces.
- B:** Camera footage is automatically deleted after 24 hours in all jurisdictions.
- C:** Facial recognition is only capable of identifying people wearing masks.
- D:** Private security guards have the same legal arrest powers as police officers.

**Reading Passage:**

*Few issues in contemporary Socio-Economics elicit as much controversy as the prospect of implementing a state-funded Universal Basic Income (UBI). At the core of the supportive position lies the promise of the eradication of extreme poverty and providing a safety net against automation-induced job loss. Advocates argue that failing to embrace this development constitutes a form of societal stagnation, keeping obsolete frameworks in place.*

*However, this enthusiasm is tempered by warnings from critics who raise concerns regarding disincentivizing workforce participation and placing an unsustainable fiscal burden on the treasury. In their view, the unchecked expansion of this practice presents a threat to fundamental societal values. The primary danger, they suggest, lies in the potential to overlook individual nuances in favor of systemic efficiency.*

*An intermediate solution often proposed is funding the program through carbon taxes and sovereign wealth fund dividends. In theory, this approach aims to strike a balance between efficiency and protection. However, in practice, implementing such regulations is fraught with difficulty, as it requires balancing contradictory objectives that may be fundamentally irreconcilable.*

**Question 7 — [Section A / Reading Comprehension]**

According to the passage, which of the following best represents the primary benefit claimed by the proponents of implementing a state-funded Universal Basic Income (UBI)?

- A:** It would completely eliminate the need for any government oversight in Socio-Economics.
- B:** It has been universally endorsed by all legal and ethical scholars in Socio-Economics.
- C:** It will guarantee immediate financial profits for all stakeholders involved.
- D:** giving citizens direct cash transfers restores their bargaining power and individual dignity

**Question 8 — [Section A / Reading Comprehension]**

Which of the following assumptions is necessary for the proponents' argument regarding implementing a state-funded Universal Basic Income (UBI) to stand?

- A:** the majority of individuals will continue to engage in productive or creative work even when survival is guaranteed
- B:** That the financial cost of implementing the technology is completely negligible.
- C:** That public opinion is always unified on matters of Socio-Economics.
- D:** That traditional methods have never successfully solved any of the problems in this area.

**Question 9 — [Section A / Reading Comprehension]**

Based on the second paragraph, what inference can be drawn regarding the critics' view on the risks of implementing a state-funded Universal Basic Income (UBI)?

- A:** Only high-income individuals would benefit from a flat-rate cash transfer.
- B:** A UBI would immediately cause hyperinflation, rendering the currency worthless.
- C:** Automation has already eliminated 90% of all administrative jobs.
- D:** A UBI shifts the balance of power from employers to workers by providing an exit option.

# Submit Answers & Check worked Solutions

## ■ Section Complete!

You have completed this practice exam paper. To check your answers and view step-by-step worked explanations:

■ Go to: <https://applaa.com/practice/check?exam=lnat&paper;=221>

Simply bubble in your choices (e.g. A, B, C, D) and get instantly scored! You can then review the explanations or chat with Appy Buddy (AI Socratic tutor) to understand complex concepts.
